Joshua N. Pritikin

Education

2014–2016   **Ph.D. Psychology**, *University of Virginia*, Charlottesville, VA (advisers Steven Boker and Timo von Oertzen).

Topic: *Unbelievably fast estimation of nested multilevel structural equation models*

2011–2013   **M.A. Psychology**, *University of Virginia*, Charlottesville, VA (advisers Steven Boker, Karen Schmidt, and Timo von Oertzen).

Topic: *Item Factor Analysis: A primer and new open-source implementation*

2007–2009   **B.S. Psychology**, *University of Oregon*, Eugene, OR.

Awards and Honors

2018-2019   Lindon J. Eaves Award for Excellence in Post-Doctoral Research $500

2014-2015   Developing Students for Leadership in Data-intensive Research and Innovation from The Jefferson Trust $20,000

2008-2009   Osher Reentry scholarship $4500

Grants, Submitted

2020   Polygenic Gene-Environment Interactions for Smoking Initiation and Cessation: Improving Prediction and Understanding Mechanisms. PI: Verhulst, Role: key personnel

In Process

Brick, T. R., & Pritikin, J. N. (in preparation). Regularized structural equation modeling.

Hunter, M. D., & Pritikin, J. N. (in preparation). Extended ordinal variable standardization in weighted least squares modeling.

McKee, K. L., Pritikin, J. N., Kirkpatrick, R. M., & Hanlon, A. L. (submitted). Discrete marginal distributions for count variables in structural equation models.

Neale, M. C., & Pritikin, J. N. (in preparation). Variance components of neuroimaging, cognitive, psychological and behavioral assessments in ABCD 2.0.

Pritikin, J. N., & Schmidt, K. M. (in preparation). Initial map of physical activity flow propensities.

Verhulst, B., Pritikin, J. N., Clifford, J., & Prom-Wormley, E. (submitted). Using genetic marginal effects to study gene-environment interactions with GWAS data.

Grants, Not Funded

2020	NSF Convergence Accelerator: Reinventing the Data Value Proposition: Personal Data Ownership using Distributed Private Analysis and Targeted Feedback. PI: Brick, Role: key personnel
2020	Synthesizing structural equation modeling from classical biometrical genetics with modern statistical methods for genome-wide genotype array & sequence data. PI: Kirkpatrick, Role: key personnel
2020	State Space Neuroscience Methodologies for OpenMx. PI: Hunter, Role: key personnel
2019	Integrating Genome-Wide Analyses and Structural Equation Modeling to analyze the genetic associations with substance use phenotypes. PI: Verhulst, Role: key personnel
2018	Analysis of Big Data with Multivariate Statistics in Social and Behavioural Sciences. PI: Cheung, Role: key personnel

Misc. Teaching Experience

2020 Fall	Statistics for Genetic Studies I. Richmond, VA
2020 Mar	International Behavioral Genetics Workshop. Boulder, CO
2019 Mar	International Behavioral Genetics Workshop. Boulder, CO
2018 Fall	Statistics for Genetic Studies I. Richmond, VA
2018 Jan	Introduction to R. National University of Singapore, Singapore

Joshua Pritikin, 800 E Leigh St, Biotech One, Suite 1-133

2017 Fall	Statistics for Genetic Studies I. Richmond, VA
2017 Oct	Advanced Genetic Epidemiology Statistical Workshop. Richmond, VA
2015 Oct	Advanced Genetic Epidemiology Statistical Workshop: Applications to Drug Abuse. Richmond, VA

Conference Presentations

2021 Feb	Alexandra Hanlon, Robert Kirkpatrick, Kevin McKee, & Joshua Pritikin. *Structural Equation Modeling with Count Variables. 2021 ASA Conference on Statistical Practice.* Online.
2020 Jan	Brad Verhulst, Joshua Pritikin, Shaunna Clark, & Michael C. Neale. *Analyzing latent propensities to addictive behaviors in a multivariate GWAS framework using GW-SEM. 2020 Genetics and Epigenetics Cross-Cutting Research Team (GECCRT) Meeting.* Bethesda, MD.
2019 Oct	Brad Verhulst, Joshua Pritikin, Shaunna Clark, Michael Neal, & John M. Hettema. *Using Structural Equation Modeling (SEM) Methods to Examine Genome-Wide Associations with a Latent Recent Depression Factor and Item-Specific Residuals. 27th Annual World Congress of Psychiatric Genetics.* Anaheim, CA.
2019 Oct	Brad Verhulst, Shaunna Clark, Joshua Pritikin, Michael Neale, & Elizabeth Prom-Wormley. *Using Polygenic Methods to Detect Gene-by-Sex Interactions for Smoking Initiation American Society for Human Genetics Annual Meeting.* Houston, TX.
2019 Jun	Brad Verhulst, Joshua Pritikin, Shaunna Clark, Michael Neale, & Elizabeth Prom-Wormley. *Developing Polygenic Gene-Environment Interaction Models. 49th Annual Meeting of the Behavior Genetics Association.* Stockholm, Sweden.
2017 May 27	*Bayesian model for characteristics of physical activities.* APS, Boston, MA
2017 May 23	*Toward multilevel variance decomposition of interactions in non-linear structural equation models.* Modern Modeling Methods, University of Connecticut, CT
2016 Jul 15	*Multilevel structural equation model rotation.* International Meeting of the Psychometric Society, Asheville, NC
2016 May 25	*Introduction to Relational SEM and an Efficient Computational Strategy for Relational SEM.* Modern Modeling Methods, University of Connecticut, CT
2015 Mar 23	*Statistical Modeling Without Seeing the Data.* 2015 Huskey Research Exhibition, University of Virginia, VA
2015 Feb 21	*Modern Test Theory Primer.* Workshop taught at The 5th International Symposium on Assessment in Music Education, Williamsburg, VA
2013 Mar 08	*A self-report measure for familiarity with mental silence.* Paper presented at The 3rd Global Conference on Spirituality in the 21st Century: Theory, Praxis and Pedagogy, Lisbon, Portugal.

Positions

Joshua Pritikin, 800 E Leigh St, Biotech One, Suite 1-133
Richmond, VA 23219 – USA

version 2021-04-06 page 4 of 6

2016-present	**Postdoctoral Fellow**, *Virginia Commonwealth University*.
2015-2016	**Research Assistant**, *University of Virginia*, OpenMx Project.
2013-2014	**Teaching Assistant**, *University of Virginia*.
	Undergraduate Advanced Research Methods & Data Analysis series (4005, 4006).
	Undergraduate Introduction to Statistics for Psychology Majors (3006).
2011-2012	**Grader**, *University of Virginia*.
	Undergraduate Introduction to Statistics for Psychology Majors series (3005, 3006).
2009–2011	**Software Engineer**, *Palo Alto Software*, Eugene, OR.
	Worked on two products: Email management for customer service teams and LivePlan business planning software (Java, cloud computing).
2002–2006	**Husband/Father**, Nashik, India.
	Spent a lot of time thinking about what I wanted to do with my life.
1996–2001	**Software Engineer**, *NatWest/Deutsche Bank*, New York City, NY.
	Developed equities program trading system (Qt, Perl, C++, ObjectStore).
1993–1995	**Software Engineer**, *Various Companies*, New York City, NY.
1990–1992	**Undergraduate Student**, *Carnegie Mellon University*, Pittsburgh, PA.
	Math/Computer Science Major

Department Presentations

2020 Feb 27	Genome-Wide Structural Equation Modeling
2019 May 30	A Factor Model with Paired Comparison Indicators
2016 Dec 08	Confidence intervals for a parameter with an upper or lower bound
2016 Mar 17	Fast estimation of multilevel structural equation models
2015 Apr 16	Arne's transient hypofrontality hypothesis: A bridge between flow and meditation
2014 Oct 16	Examination of the likelihood function by simulation of a fictional Hamiltonian system
2014 Mar 27	Numeric derivatives: Pushing the accuracy limits
2013 Oct 17	Item Factor Analysis: Everything I told you in the spring was wrong, and current status
2013 Mar 28	A new implementation of Item Factor Analysis: Accuracy, flexibility, and speed
2012 Nov 01	Navigating the bowels of Marginal Maximum Likelihood: An expectation-maximization Item Response Theory estimation algorithm
2012 Apr 19	Is there a link between flow and meditation?
2011 Dec 05	Oscillation around non-stationary equilibria
